

Capital BlueCross 2018 Individual Rates

At Capital BlueCross, we believe our customers, and everyone in Pennsylvania, are best served by a competitive, stable, and private health insurance market that offers a variety of choices at reasonable prices. Late last week, several announcements made by the federal government regarding health insurance and coverage have continued to make planning, pricing, and stability more challenging.

The latest increases announced on Monday, October 16, by the Pennsylvania Insurance Commissioner overwhelmingly apply to Silver plans on the exchange. For customers who receive a premium subsidy, your actual premium paid may not be significantly different than it is today. If you are not eligible for a premium subsidy, we have options including products offered off-exchange that do not reflect the significant increases required by the latest regulatory changes.

Our goal, as a community-based health insurer, is to provide the best possible insurance at the lowest possible price. We have many options available for individual customers and we encourage anyone looking for coverage through the [Federally Facilitated Marketplace](#) to shop our products and understand your options. Additionally, you can visit [Choose Capital Blue](#) or one of our [Capital Blue health and wellness centers](#).
